

# **-EXPERIENCE electronics- power transformer data sheet NTR-1 B**

Power transformer for tube amps with EL 34, 6L6 GC, KT 77 and similar tube types.

|                |                                                               |         |
|----------------|---------------------------------------------------------------|---------|
| Power handling | 320 VA                                                        | pinning |
| Primary        | 230 V                                                         | (1-2)   |
| Protection     | static shield between primary and secondary connected to core |         |
| Secondary 1    | 50 V/0.05 A                                                   | (4-5)   |
| Secondary 2    | 300 V/0.05 A                                                  | (6-7)   |
| Secondary 3    | 17 V/0.8 A                                                    | (8-9)   |
| Secondary 4    | 17 V/0.8 A                                                    | (10-11) |
| Secondary 5    | 6.3 V/4 A                                                     | (12-13) |
| Secondary 6    | 6.3 V/4 A                                                     | (14-15) |
| Secondary 7    | 330 V/0.6 A                                                   | (16-17) |
| Secondary 8    | 360 V/0.6 A                                                   | (16-18) |
| Secondary 9    | 22 V/0.05 A                                                   | (20-22) |
| Core type      | MD 102 B                                                      |         |
| Dimensions     | height                                                        | 112 mm  |
|                | width                                                         | 120 mm  |
|                | length                                                        | 89 mm   |
| Mounting       | mounting angles                                               |         |
| Weight         | ca. 4.9 kg                                                    |         |
| Connectors     | solder lugs                                                   |         |
